### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

No prior art has been found to anticipate or render obvious the presently claimed subject matter.

Specifically, none of the prior art of record discloses the combination of the limitations presented including the structural features preventing electrical connection with the prong being only partially inserted into the receptacle (claim 1);

the free edge of the contacts with cut-out portion providing clearance between the contact slots and the prong holes (claim 11);

the structure of the actuator member having a block connected to the actuator element and being disposed laterally of the first axis (claim 29);

the actuator element having the means to provide clearance between an inserted male plug and the actuator element, the means being oval in cross-section (claim 33),

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
